

BELFOR THAILAND

YOUR GLOBAL PARTNER IN DISASTER RECOVERY

IN THAILAND, we have built a strong technical team who have handled many major disaster recovery projects. One of the major projects we completed in 2018 was for an international auto parts supplier. BELFOR Thailand reached the site within 6 hours of notification of the disaster incident. Loss mitigation began within 72 hours, and 28 BELFOR personnel recovered 266 mechanical and electronic items of equipment within 6 weeks. It would have taken an estimated 6 months for the electronic parts to be replaced.
